Justices of the Arizona Supreme Court

I write to comment on the proposed change to ER 1.15. submitted by the Arizona Association of Justice. I support Petition R12-0032. It is a common sense resolution to an impractical obligation on plaintiffs and their attorneys in personal injury matters. The proposed change places the burden on the person making the claim to a plaintiff's personal injury recovery. This is as it should be. The proposed change provides for a reasonable time period for the person making such a claim to act. The proposed change provides for reasonable notice to the person making the claim. The proposed change is necessary and welcome. Please adopt the proposed change.

Michael E. Larkin
